PROFESSIONAL SUMMARY

Information Technology undergraduate at Bahria University (CGPA 3.72/4.00; two-time Merit Scholarship recipient) with hands-on experience in full-stack web development, machine learning, and data-driven applications. Software Developer Intern at Clayro Studio, building practical projects with React, Node.js, Express, PostgreSQL, Prisma, and Python. Seeking opportunities in software engineering, AI/ML, or data science.

EDUCATION

Bahria University, Karachi Campus Expected 2027
Bachelor of Science in Information Technology | **CGPA: 3.72/4.00**

Merit Scholarship recipient (awarded twice); Final Year Project in progress.

Whales College / St. Gregory·s High School · GCE A-Levels and O-Levels 2019·2023

Relevant coursework: Data Structures and Algorithms, Database Management Systems, Database Administration, Operating Systems, Computer Networks, Cybersecurity, Machine Learning.

PROFESSIONAL EXPERIENCE

Clayro Studio Private Limited · Software Developer Intern Oct·Dec 2026
Fall Internship (3 months, ongoing)

· Collaborating with a professional development team to build and test software features.

· Developing a full-stack CafeServe demo and practicing collaborative development workflows.

TECHNICAL SKILLS

Programming: Python, C++, Java, JavaScript, SQL, HTML5, CSS3

Web Development: MERN stack (MongoDB, Express.js, React, Node.js), Vite, Tailwind CSS, Bootstrap, REST APIs, Progressive Web Apps (PWA), Streamlit

AI & Data Science: Machine Learning, Predictive Modeling, EDA, Data Preprocessing, Scikit-learn, Pandas, Jupyter Notebook

Databases: PostgreSQL, MongoDB, Prisma ORM, SQL*Plus, DBMS, Database Administration

AI-Assisted Development: AI development tools, Prompt Engineering, LLM prompt design

Other: JWT, Selenium, Prolog, Git, Cybersecurity fundamentals and risk awareness

SELECTED PROJECTS

PakEduNavigate (In Progress) · Student Admissions & Career Guidance PWA

React, Vite, Node.js, Express, Python, FastAPI, PostgreSQL, MongoDB

Building an installable, responsive PWA to help Pakistani students explore university admissions, calculate merit and equivalence, and plan academic pathways.

CafeServe (In Progress) · Restaurant Ordering & Management Demo

React, Vite, Node.js, Express, PostgreSQL, Prisma, JWT

Developing a full-stack cafe application with a React frontend and Express API, using PostgreSQL and Prisma for data persistence and JWT-based authentication.

Hybrid AI Agricultural Price Predictor & Chatbot

Python, Streamlit, Scikit-learn, Pandas, Prolog

Developed a machine-learning web application for agricultural commodity price analysis, with data preprocessing pipelines and a rule-based Prolog knowledge base for interactive queries.

Online Rental Marketplace Platform

MongoDB, Express.js, React, Node.js

Built a full-stack marketplace concept for listing and leasing consumer assets, with REST API endpoints, centralized state management, and indexed MongoDB collections.

LEADERSHIP & COMMUNICATION

Team lead on multiple university projects, coordinating teammates and project outcomes. Regularly deliver project presentations; confident communicator and collaborative team player.
